

2027 NTU-UBx Joint Seed Funding Call for Proposals

The present call builds on the success of this initiative to support collaborative projects between National Taiwan University (NTU) and the University of Bordeaux (UBx) and seeks to provide seed funding opportunities for new or recent collaborations. The call hopes to foster sustainable and high added-value partnership projects with impact on the university community and concerned institution(s).

The funding will mainly support travels and costs associated with the organization of seminars, workshops, events as well as mobility of students in order to help faculty in both institutions to deepen their understanding of complementary interests and strengths.

NTU and UBx have together committed to fund **up to EUR €15,000 (NTD \$520,000) per selected proposal combined**. In other words, each university will fund **up to EUR €7,500 (NTD\$260,000) per selected proposal**. Applications should be jointly submitted by NTU and UBx faculty. NTU Office of International Affairs (OIA) and UBx International Office (DRI) will administer the program.
